Maples' Gardens Iris Introductions, 1940

BIG MATT (35-40 x Venus de Milo)

34-inch. Midseason. White with a considerable area of cream at haft and extending well out on falls. Bright yellow beard. Fragrant. The large standards are held well together and the enormous falls are quite flaring. This has been the largest variety on our place and it has excellent substance. The heavy stalks are well branched and the season of bloom is well extended. It sets seed well and the pollen is fertile. It is not like either parent in form nor size and is also quite distinct from the other seedlings in this cross. Possibly a seminal sport but at least an interesting break. \$15.00

MISSOURI MISS (Santa Barbara x Venus de Milo)

36-inch. Midseason to late. Very light frosty blue self. Orange beard. Fragrant. Shape of flower near Venus de Milo but better filled out and with much better substance. Holds it's color well. Very floriferous. Thrifty grower. \$5.00

TANEYCOMO (Santa Barbara x Souv. de Mme Gaudichau)

33-inch. Early to midseason. Radiant blue self, quite rich. Beard orange with blue tip. Flower very pleasing with standards coming together and falls semi-flaring; broad segments. Fragrant. Fertile breeder both ways. Like BIG MATT this is quite distinct from the other seedlings which came from the same pod. There were other blue ones but not like this in form. Named for the blue of our beautiful Lake Taneycomo in the Ozark Mountains. \$10.00

LATE NEWS (Cardinal x Autumn King)

30-inch. Early in Spring season and is a consistent and persistent autumn bloomer. Mr. Hall, who lives in Wilmette, north of Chicago, was kind enough to try this for us and it has been among the most willing of his autumn blooming varieties. It has always been a good autumn bloomer here in southwest Missouri. Color is a blue orchid. Stalk branches almost to the ground. Very sweet scented and a whiff of it in September or October is very heartening. Not like October Opera in color, form nor habit.\$7.50

Our Previous Iris Introductions

SUNNY JIM (1939) (35-40 x Depute Nomblot) 40-inch. Large rose-red with considerable yellow in center. Orange beard. Shape of Depute Nomblot but larger flower and taller stalk. Well branched and well furnished with bloom over long period. Good substance, withstanding weather changes sturdily. Showy and bright in the garden. We're proud of Sunny Jim. \$10.00

OZARK TRIUMPH (1938) (Souv. de M. Gaud. x Santa Barbara) 42-inch. Medium blue self, soft yellow beard, falls slightly flaring. Good substance. Well branched stalk. Long bloom season. \$7.50

BALDKNOBBER (1938) (Indian Chief x Beau Sabreur) 36-inch. S. smoky red and yellow blended. F. red. Prominent bright orange beard. Flower of good size and good substance. Non-fading. Consistent, heavy bloomer. Fast growing. Has proven a breeder of interesting things. \$5.00

FAVORITE SON (1938) (Indian Chief x Los Angeles) 40-inch. Large velvety deep claret, peculiarly bright in morning and evening sun. Fine, broad foliage. \$5.00

MOUNT ETNA (1939) (35-40 x Venus de Milo) 36-inch. Cool, clean white with large blooms, broad segments, semi-flaring falls and good substance. Sister seedling to Big Matt but quite different in form and appearance. \$7.50

OPERETTA (1938) (Gay Huzzar x Clara Noyes) 26-inch. Table Iris. Lilac-red standards, deep red falls, bright orange beard. Profuse bloomer and long season. Well branched stalk. As a breeder has given us some peculiar and interesting things which we call "hedge Irises" none of which have been released to the trade.50

HILLBILLY (1938) (Vesper Gold x Nene) 28-inch. Table Iris. One would not expect to get this dainty small-flowered light blue with such delicate stems from pollen of a flower like Nene. Perhaps we didn't..... .50

SPRINGFIELD (Simón, 1938) (Legend x Burning Bronze) 38-inch. Midseason. Deep velvety garnet red, almost a self. Clean haft. Domed standards, broad, slightly flaring falls. Dark yellow beard. Vigorous grower with a stately, well-branched stalk, and good bloom placement. Fertile breeder both ways. \$5.00

Other Popular Varieties

\$5.00—Spring Prom.

4.00—Siegfried

3.00—Pearl Lustre, The Red Brick.

1.50—Jasmania.

1.00—Eclador, Naranja, Jubilesta.

ADOBE	DEP. NOMBLOT	LEGEND
BLUE MONARCH	DOLLY MADISON	NEBRASKA
CASTALIA	EL CAPITAN	SENSATION
CLARA NOYES	EUPHONY	TUSCANY GOLD
DAUNTLESS	INDIAN CHIEF	VENUS DE MILO

IRIS SEEDS

We will offer the following seeds this season. Most of these will be ready for delivery by Sept. 1. They should be planted as soon as received in pots or beds about one inch deep and protected from birds, dogs, etc. Most of them will germinate in this climate about April first, but some will wait another year. We try to plant all our Iris seeds not later than Oct. 10. We do not like to plant before October because the seeds have sometimes germinated before winter and then the little seedlings will heave out and die during the winter months.

Our bearded Iris collection will have a small percentage of dwarfs, a few intermediates, but mostly seeds from the large and tall modern hybrids, the very finest varieties. Of course, they are chance seeds, not hand crosses, and the results will be quite interesting to observe. Price of these seeds per packet of 50 seeds 25c

The following species available in varying size packets according to value of each:

Iris biglumis25	Iris Hyacinthiana25	Iris pseudacorus gig.25
Iris delavayi25			Spuria species, mixed25
Iris dichotoma25			Siberian hybrids, mixed25

HEMEROCALLIS

As easy to grow as Irises and filling in with bloom from early Spring until Autumn. The following varieties for delivery in 1940 and Spring, 1941. If you would like one of each, \$5.00 for the collection.

BAGDAD	\$1.50	GOLD DUST50	MANDARIN50
DR. REGEL25	GOLDENI35	MIKADO35
EUROPA35	J. R. MANN50	QUEEN OF MAY60
FLAVA25	KWANSO FL. PL.35	OPHIR65
FULVA MACULATA40			THUNBERGI25

NARCISSUS

Fine companions for your dwarf Irises and among the easiest of flowers to grow. If the moles get your tulips try these on them. They'll let them alone. Please order before Sept. 15, immediately if possible. These cannot be kept out of the ground too long.

Aerolite, Yellow trumpet15	Early Surprise, Barri15	King Alfred, Yellow trumpet15
Alasnam, Yellow trumpet35	Emperor, Yellow trumpet10	King Arthur, Yellow trumpet20
Alcida, Barri15	Francisca Drake, Incomparabilis45	Lady Hillingdon, Jonquilla hybrid50
Bernardino, Incomparabilis15	Helios, Incomparabilis15	Lovenest, White trumpet50
Buttercup, Jonquilla hybrid50	Hera, Leedsi15	Queen of the North, Leedsi15
Cleopatra, Yellow trumpet20	These may become scarce because of the war. We will fill orders as long as they last. More new ones coming up next year.		Sirdar, Leedsi25
Croesus, Incomparabilis15			Van Wavern's Giant, Bicolor15
Dosoris, Bicolor Barri20	ENTIRE COLLECTION, One Each, for \$4.00.		W. P. Milner, White trumpet25

PEONIES

Another easy to grow perennial and you do not have to move these around a lot because they will thrive for years in one location. Shipments begin Sept. 1 and continue to freezing weather in November. Some varieties available only in limited quantities.
